Summer internship

MOVISTAR ARGENTINA - ENE - FEB 2021

- Training in programming, company organization and digital services.
- Emotional intelligence, customer experience and design thinking workshop.

LATEST PROJECTS

Emma | Voice Assistant   WEB APP

- Page that recognizes what the user says through the microphone and responds. It tells jokes, interesting facts and more. I used a Javascript voice module.

Llanosecolodge | Landing Page   WEBSITE

- Glamping service presentation page for a company in Tierra del Fuego. I implemented several Javascript libraries such as Fullpage.js and Modernizr.js.

Rowdy Parrots | NFT Website   DESIGN

- Responsive web design of Landing page presenting a collection of NFT's. I carried out a natural jungle style to maintain the brand image.
